

CCA Board of Directors Candidate Statement

Andrew Bunch

I received a Bachelor's of Science Degree in Business Administration from California State University Stanislaus in 2009, with a minor in Computer Information Systems. I am currently employed as a supervisor with the California Department of Corrections and Rehabilitation (CDCR) in Stockton California, and have been with the department since 2010. I have lived in Copperopolis with my family since February 2014.

As a board member I will do my best to promote fiscal responsibility and maintain transparency with the membership. I want to serve on the board of directors in order to ensure the amenities and services provided at Kiva, Black Creek Park, and the Equestrian Trails are maintained and improved in a cost-effective manner, for current and future residents in the Copper Cove Association.
